\$244.00 Slides & Accessories Sold Separately

About the Jungle Fort:

- The **Jungle Fort** configuration provides up to (2) accessory positions for a swing, rope ladder, trapeze bar, climbing rope, or other single occupant accessories of your choice.
- **STRONG:** The Jungle Fort playset is constructed using standard 4x4, 2x8, 2x6 and 2x4 dimensional lumber and is securely fastened using 3/8" galvanized carriage bolts allowing for complete disassembly and relocation. The Jungle Fort uses (2) 3/8" carriage bolts per joint to keep the Fort strong for years to come!
- **Customize:** Plans range from 15'Lx7'W up to 15'Lx18'W.
- **Splinter-Free** wood polymer lumber may be used for the Fort's platform and walls (optional).

Save up to 50% or more vs similar prefabricated sets!

LOW-COST OPTION:

Builder Fort Swingset Kit

Start here to completely customize your playset!
Detailed Plans, Galvanized Hardware, Roof Tarp, Ramp Climbing Rope and (8) Swing Hangers (Kits do not include lumber)

\$300.00 Slides & Accessories Sold Separately

Jungle Fort Swingset Features:

- **Large:** 6ft x 6ft size, 5ft deck ht., 6ft headroom, Multi-Color Roof (R•B•G•Y)
- **Sandbox:** Under Fort, 4 seat positions, a full 8" deep.
- **Inclined Step Ladder:** 2x2 handrails, 2x4 treads solidly braced, entry handgrips.
- **Gang Plank Ramp:** 15ft nylon climbing rope, safety side rails (option).
- **Monkey Bars, Rock Wall, Picnic Table and Tire Swing:** Available to add on, now or in the future.
- **4-Position Swingset:** Solid 4x6x12ft/16ft/8ft beam, 1/2"-bolted 4x4 A-Frame. All-Bolted A-Frame design is stronger than those using metal braces and nails that can loosen over time.
- Supports longer 10 ft. **Wave, Combo, Scoop or Spiral Slides** that require 5ft-high platform.
- Two 2x6 accessory beams on Fort.
- **Activities Separated:** Climbing, sliding, and swinging are all separate areas. Slide located on its own side... away from the Ladder. Monkey Bar climbing separate from swing area. Ladder design includes handrails. (Designed to meet the ASTM safety guidelines.)
- **Splinter-Free:** Wood-polymer lumber can be used for the Fort platform and walls where skin contact occurs most (optional).
- **Easy-to-build!** See for yourself! *Detailed Plans available for purchase preview (Credited to Your Kit Purchase) "Anyone that can measure, cut, and drill can build a professional set."*
- **Customize:** Plans range from 15'Lx7'Wx11'H up to 30'Lx22'Wx11'H.
- **Relocate:** All bolt construction, no cement required.

Save up to 50% or more vs. comparable prefabricated sets!
